PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building, deploying, and maintaining **production-ready web applications** using **Laravel, React, and PostgreSQL/MySQL**. Strong focus on **backend architecture, authentication, role-based access control, security logging, and cloud storage**. Built and deployed a **live church management system currently used by a real organization**, demonstrating end-to-end ownership from requirements gathering to production deployment.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS
Backend: Laravel (PHP), RESTful APIs, Authentication & Authorization
Databases: MySQL, PostgreSQL (Supabase)
Cloud & Deployment: Supabase (Storage & DB), Render, Vercel
Tools: Git, GitHub, Postman, Thunder Client
Concepts: RBAC, API Security, Activity Logging, MVC Architecture

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer
Anchorit Tech Company— Lekki, Lagos
Feb 2021 – Jun 2021

- Contributed to restructuring a lending platform, improving usability and supporting a **40% increase in customer acquisition**
- Collaborated with frontend and mobile developers to implement new features and backend improvements
- Developed RESTful APIs using Laravel
- Built and maintained admin dashboards and internal tools

PROJECTS

Church Management System (Live Production System)

🔗 https://eriseyi-orisun-ayo.vercel.app

- Designed and developed a full-stack church management system actively used by a real church
- Implemented **role-based access control** (Super Admin & Admin)
- Built **security and audit logging** (user, IP address, user agent, timestamps)
- Integrated **Supabase PostgreSQL and Storage** for data and media handling
- Deployed with production environment configuration and error handling

Tech Stack: Laravel, React, Supabase, PostgreSQL, REST APIs

Portfolio Management System

🔗 https://tosintech-portfolio.vercel.app

- Built a dynamic portfolio website with a **custom backend**
- Projects are managed via an authenticated admin dashboard (not hard-coded)
- Implemented secure image uploads and cloud storage
- Responsive UI optimized for all devices

Tech Stack: React, Laravel, Supabase

E-Commerce Application

- Full-stack e-commerce platform with authentication, product management, cart, and checkout

- REST API-driven architecture with frontend/backend separation

Tech Stack: Laravel, React, MySQL
